### Junk Modelling Resources

Dear Parents and Carers,

After half term, Key Stage 1 will be learning all about our local area, in Geography. As part of this learning, pupils will be looking at different homes within Somerton, focussing on their key features. Week commencing 22<sup>nd</sup> June, the children will be constructing homes from around Somerton using junk modelling materials. The idea is that as a Key Stage, we create a model map of homes within Somerton.

We would be grateful of any junk modelling donations. These could include; small boxes, cereal boxes, tubs, milk bottle caps or cardboard tubes. If you have any of these that usually go in your home recycling boxes, please do think of us.

Mrs Slade will be collecting all junk modelling donations in Puffin class, so if you have anything you would like to bring in, please take to Puffin Class at the start or end of the school day.

We hugely appreciate your support.

Best regards

The Key Stage 1 Team 😊
